

# Bar Hill Active Travel Survey

## What is active travel?

Active travel refers to walking, wheeling and cycling including the use of mobility aids such as wheelchairs and pushchairs as well scooters and adapted cycles. It supports the aims of our Active Travel Strategy to enable and encourage a shift away from journeys made by private car.

## What are we doing?

Cambridgeshire County Council are carrying out this survey to gather views from local residents on active travel in Bar Hill.

We would like to understand how you currently travel, where you would like to go and if there is anything preventing you from choosing active travel options for your journeys.

## Other ways to complete the survey

Paper copies of the survey are available should you be unable to access the internet version. These can be collected from Bar Hill Library, Bar Hill Health Centre and Dry Drayton Village Hall.

An easy read version of the survey is available via the QR code and web address link above.

For any queries relating to the survey please email [activetravel@cambridgeshire.gov.uk](mailto:activetravel@cambridgeshire.gov.uk)

If you're interested in active travel, please visit our website at [www.cambridgeshire.gov.uk/active-travel](http://www.cambridgeshire.gov.uk/active-travel)

## What could we look at?

Here are a few of our ideas: routes to create easier access to bus stops; completing the perimeter footpath; routes around and through the centre; improve the bridleway to Dry Drayton; or improve the route across the A14 onto the A1307 and beyond.

We would like to hear your ideas though; submit them in the survey

## What's next?

This survey will form the evidence base for local support for active travel in and around Bar Hill. It will enable us to consider schemes for feasibility studies and apply for funding for schemes if and when funding becomes available.
